

Homework 0 (Due 11:59pm, January 27th)

Please read the following academic honesty policy. If agreeing to it, please fill the **name and hand sign** the form before **submitting the PDF file on Gradescope as hw0**. PDF files scanned from a hard copy or electronically hand-signed are both acceptable. On-time submission of **the signed form** receives 5 bonus points. Late turn-in will be accepted but will not receive the bonus points. **Very late submission (that is, submitted past a final deadline warned on Brightspace) gets a 5-point deduction from the earned points for this semester's written assignments.** If the student disagrees with any of the terms in the stated policy, please explain below. The instructor will read before discussing with the student.

The policy agreement form, with the signature line, is printed on the next page.

Academic Honesty Policy Agreement (CS240 Spring 2021)

The undersigned agrees to strictly follow the academic honesty policy stated in course syllabus posted on Brightspace and the additional specifics stated below.

Unless stated otherwise explicitly in the work handout, all assignments, tests, and projects **must be completed by each student independently**. Copying, either electronically or manually, from others' work (from Purdue students or external sources such as the internet) is a violation of the honesty policy. *Letting a student copy one's work is also a violation*. If a student claims that his/her work is copied by another student without consent, then the case will be reported, as a theft, to appropriate authorities, with the owner of the stolen work presented as a key witness. A case of theft will normally result in a much more severe consequence than other academic dishonesty cases.

Students are also not allowed to copy any part of other students' electronic editing/drawing in the homework. Such copying, even if is limited to one problem in the assignment, will be treated as plagiarism.

The undersigned understands that all submitted work will be subject to inspection, possibly with the help of software tools, to make sure the honesty policy is not violated.

Depending on the severity of a violation, the ***first offense*** will receive one of the following **penalties**: (i) a zero point for the specific assignment, (ii) an automatic reduction of the final letter grade by a full grade, e.g. A to B, B to C, etc, or (iii) failing the entire course. ***Multiple (i.e. two or more) offenses*** will automatically result in failing the course and a report to the university. Any dispute with the decision will be handled by the Deans of Students Office.

I have read the academic honesty policy above and agree to its terms.
